27th June 2024 **1006851|2024|April**

Dear **Raja Natarajan,**

Congratulations!

Over the last 8 years, we have transformed from a single competency to a multi competency organisation with deep banking domain expertise. Our digital, data and core banking product competencies now contribute 55 % of our revenue, while our assurance competency accounts for the remaining 45%. Through our well-established customer centric delivery, engagement and account management structures, process and leadership, we have established a 15% CAGR over the past four years, despite the low customer IT spend.

We are now set to move into the promising mid-sized 'banking only' technology service provider segment, with USD 200 million in revenues by 2028. This involves:

- Building deep expertise in retail, lending, cards, payments and wealth technologies
- Scaling customer experience, process excellence, AMS reengineering, regulatory and assurance service lines
- Expanding our client footprint and reach in the US region through sales, partnership and acquisitions

This remarkable progress would not have been possible without the drive, commitment, care, and integrity you bring to work and to every customer interaction.

I am very happy to inform you that, based on the performance review of your past contributions and the potential you hold, you have been promoted as **Principal SDE** and your new level is **L5A**. Your compensation is being revised to **INR 31,26,000** per annum with effect from **1st April 2024.** Please refer Salary Annexure for more details. Your next performance review is due to happen in **October 2024.**

Realization of our aim depends on our ability to continuously build capabilities in banking technologies, develop demonstrable accelerators in new age technology areas such as AI, cloud and automation and strengthen our culture of high energy, camaraderie and commitment to customer success.

As always, I am counting on your leadership and support.

Regards,

S. Sandeep

Sandeep Sekar
